Charge Judge Awards Fat Fees Where Fat Fees Mean Extra Votes

JUDGE PERSONS AWARDS \$14,438; TAX GAIN IS ONLY \$9,000

Hand of Politics Is Revealed in the Handling of Inheritance Tax Cases in Lake County

\$5,438.10 LOSS TO TAXPAYERS; BUT—MORE VOTES FOR JUDGE PERSONS

BY H. B. GASTON

"Whose bread I eat, his song I sing" is a well known maxim of political life. No one understands its practical application better than does County Judge Perry L. Persons, dean of all Lake county office-holders by virtue of his having served for eight consecutive terms on the county bench and who now is candidate on the Republican ticket for a ninth four-year term.

A report compiled recently from Lake County court records reveals that Judge Persons awarded his political friends \$14,438.10 during the past sixteen months for their services as appraisers and "securities and real estate experts" in bringing an increase of only \$9,000 in state inheritance taxes. The labors and researches of these investigators actually cost Illinois taxpayers \$5,438.10.

The Antioch News opposed Judge Persons' re-nomination in the Republican primary last April on the grounds that his official acts indicated that he had conducted the business of his office for term after term with an eye on the ballot box at each succeeding election and that consequently the business of the court suffered neglect through the Judge's political maneuvers upon many occasions. The News cited the Judge's neglect or refusal to hear many cases over which his court has jurisdiction; his handling, or failure to handle liquor violation cases during the so-called dry era; his commitment of many juvenile offenders to the St. Charles "school of crime" without first having exhausted local facilities for taking care of minor offenders; his failure to investigate illegal delinquent tax publications in 1938; and his failure to give full co-operation to the Public Welfare Department in the handling of matters relating to dependant children.

The News now has reason to believe the Judge has "played politics" in the inheritance tax cases. It is still opposed to his re-election, for this and also for the reasons above stated.

The Antioch News is now, as always, Republican in politics and it supports all Republican candidates it deems worthy of being placed in positions of public trust. It is opposed to the practice of rewarding political henchmen of any political faith at the sacrifice of efficiency in administering the functions of government. The News believes that any official who spreads taxpayers' money indiscriminately for the purpose of gaining political support should be removed from office. That is the policy and contention of the News.

Politics and the "Experts"

From the viewpoint of the layman—and there are thousands of them in Lake county who never come into intimate contact with their county court—the handling of the inheritance tax cases that are herein reviewed may have been looked upon as just so much more routine court business. Citizens generally are disposed to believe that the court's decisions are just, that court business is disposed of satisfactorily and with least expense to the taxpayer, with no political motives involved. A review of many of the inheritance tax cases in this county reveals far beyond reasonable doubt that the court in its deliberations was eyeing the ballot box instead of guarding the public treasury.

The total taxes for the twenty estates under scrutiny which executors and administrators were willing to pay amounted to \$172,099.19. After the real estate and security experts and appraisers finished their work, the estates paid a total of \$181,099.20, an increase of only \$9,000.

Large Estates Involved

These "experts" on the valuation of securities and real property values included a former dry era liquor dispenser who quit the tavern business shortly after prohibition was repealed to become a machinist; a telegraph operator; a milk wagon driver; a plumbing contractor; an auto salesman; and a department store owner. These men passed judgment on the valuations of securities and realty of some of the largest Gold Coast estates.

Although Lake County is the home of a number of competent appraisers not a single experienced securities expert was called to serve.

Another startling disclosure was that a Johns-Manville Corporation representative and an attorney of the firm fighting on the side of the Johns-Manville Corporation in opposing the

annexation of the north lake front to Waukegan were granted fees as experts in the same case, while the annexation was pending before the judge. Those receiving these fees in the Bernard Fowler Rogers estate were Attorney William R. Behanna, whose firm represented the Bonnie Brook School district in fighting the annexation, and F. C. Boggess, purchasing agent for the Johns-Manville Corporation. Judge Persons, after a lengthy series of hearings extending over a period of nine months, denied the petition for annexation.

Tries to Displace Marks

Most of these "experts" were precinct committeemen and politicians who gave valuable support to Judge Persons in his fight for re-nomination.

Antioch Sequoits Continue March To Championship

Crush Palatine, 38-6, for Third Straight Conference Victory

Antioch's rampaging Sequoits are well on the way to clinching the Northwest Conference gridiron championship. The least that can happen in the remaining games of the schedule is to end up in a tie with either Grant or Barrington, while a victory over Northbrook tomorrow afternoon will place the title on ice for the flashing Sequoits who have won all three of their conference tilts.

Conference Standings			
	Won	Lost	Tied
Antioch	3	0	0
Palatine	1	2	0
Bensenville	1	2	0
Northbrook	1	2	0
Grant	1	1	1
Barrington	1	1	1

In order to tie with Antioch, either Grant or Barrington will have to win both of their remaining games, which seems unlikely since both have won only one game while losing one and tying one.

The Sequoits came in sight of the championship last Friday when they defeated Palatine 38 to 6 in a game featured by a running attack and aerial assault, giving them undisputed possession of first place in the North circuit.

Games tomorrow are: Antioch at Northbrook—afternoon; Bensenville at Grant—night; Barrington at Palatine—afternoon.

Antioch Youths Are Named on 4-H Club Honor Roll

Four Antioch boys have been honored as outstanding 4-H club members and nine others of the local club have been selected as honor project members.

The selection of the county's outstanding 4-H club members and project honor members has just been completed by the county 4-H Club committee.

Antioch boys selected as outstanding members are Lloyd Drom, Raymond Wells, Milton Smith and Albert Smith. The members who were selected by the county committee to receive these honors were selected from a list of local club outstanding members and project honor members previously selected by the local 4-H club leaders. As will be noticed from the above, two different types of recognition are given.

In selecting club members to receive these honors, the 4-H club rates the various members on the basis of a score card. In selecting the outstanding club members, the members entire record is considered while in the selection of project honor members, only the current year's record is considered. Some of the factors included in the score card are the 4-H club members project achievement record, his progress toward a goal, his health achievement record, the participation in the program of local 4-H club meetings, and his leadership ability as recognized by the responsibility placed on him by his local club, by the school and by other various local community organizations.

One can readily see that in order to win county honors, a club member needs to do more than merely win a blue ribbon on his project at the county fair.

Antioch boys selected as project honor members are: Grain and corn—Raymond Wells. Wild life conservation—Allen Thain. Garden projects—Jack Flanagan. Poultry—Richard Wells. Dairy—Lloyd Drom. Sheep—Albert Smith. Swine—Milton Smith.

Club Record books awards were made to the following: Swine—Milton Smith, 4th. Sheep—Albert Smith, 1st; Scott Miller, 2nd. Dairy—Lloyd Drom, 4th. Potato—Warren Wells, 4th. Wild life conservation—Allen Thain, 1st. Corn and grain—Ray Wells, 1st; Raymond Scott, 2nd.

Antioch Should Be Credited In Bond Buying

Antioch's war bond and war savings stamp sales for the month of September were not up to quota, a check of local purchases revealed this week.

It is possible that this condition may be due to the large number of residents now at work in defense plants outside of Antioch who subscribed to the ten per cent payroll deduction plan and are receiving bonds and stamps supplied by employing companies.

According to Otto S. Klass, chairman of war bond and stamp sales in Antioch, credit for such sales may be given for Antioch quotas, providing the purchaser will show his home address. If such action is not taken by the purchaser the credit for the sale is assigned to the district in which the employee receives his bonds or stamps.

NATIONAL VICTORY SERVICE LEAGUE FORMS CHAPTER HERE

Frank Lux of Chevrolet Co. Is Inducted as Chairman

Formation of an Antioch chapter of the national Victory Service League, a national alliance of motorists, was announced here today by Frank Lux, service manager for R & J Chevrolet Sales, which will serve as local headquarters of the new organization. Mr. Lux has just returned from Chicago, where he was formally inducted as Antioch chairman of the VSL.

The Victory Service League, according to Lux, has been founded as a patriotic organization of car and truck operators who are pledging themselves to car conservation in the interests of maintaining America's civilian transportation system.

In addition, the League will provide motorists with a correlating agency through which they can participate in any nationally-sponsored activity designed to further the country's war effort, Lux said.

"Automotive transportation is America's vital life-line," Lux said, adding that the national slogan of the VSL is "Save Wheels That Serve America."

VSL members, Lux said, will receive a free car conservation inspection when they sign the national pledge. In addition, they will be given membership cards and emblems to display on their cars.

Seek Antioch Farm Youth For Theft

A search is being made here this week for John Morgan, believed to reside on a farm near Antioch with his step-father, Edward Malm, formerly of Rockford. The youth is wanted for questioning in connection with a theft of money from a home near Rockford Saturday.

Morgan returned to his former home near Rockford Saturday and requested permission to the present tenant of the farm, a woman, to go into the attic of the home to recover a pair of skates.

The woman, who was in the barn at the time, gave the youth permission to enter the house. She discovered later that her purse containing \$63 and a \$25 defense bond were missing.

Lake county deputy sheriffs were assigned to locate Malm and to question him about his stepson.

DRIVER SLEEPS—CAR HITS TRUCK—GOES IN DITCH

Severe cuts and loss of blood was the penalty paid by William Johnson, 19, of Antioch, for falling asleep last Saturday at the wheel of his car while driving on Grand avenue near the intersection with Highway 21.

His car was struck by a dump truck, then partly overtaken into a ditch when he awoke to find his face covered with blood from several cuts he suffered in the crash. Apparently no severe injuries were sustained.

The truck was driven by William Nicholai of Lake Villa, who stated that he could not steer his truck out of the path of Johnson's car which he said was on the left side of the road. Johnson's car was badly damaged and was brought to Hunter's garage in Antioch. Nicholai was not injured.

Johnson is the son of Mr. and Mrs. Anton Johnson of R. F. D. 2, Antioch.

Control Center Test To Be Demonstrated At Air Wardens' School

"Smoky" Rogers of State Fire Prevention Dept. to Be in Charge

Col. Harry K. Rogers, better known as "Smoky" Rogers, will be in charge of the Control Center test and demonstration to be staged tonight at the Antioch High school in connection with the fifth session of the local air raid wardens' school.

This phase of protective service becomes very important under air raid conditions, wardens say, because proper co-operation and co-ordination of all services are absolutely essential to the community during an emergency.

Complete First Aid Tuesday Upon completion of the First Aid instruction Tuesday night at the Grade school, local wardens and fire-watchers who qualify will receive their official recognition and insignias at the graduation exercises to be held the following Thursday night (Oct. 29) at the High school.

Vitamins—Timely Subject At Men's Civic Club Dinner

"Americans are more food conscious than ever before, and vitamin content of our food is the subject of the hour," H. J. Nielsen, research chemist for Abbott Laboratories, told members and guests of the Men's Civic club at the monthly dinner meeting held Monday night at the Antioch restaurant.

The speaker stressed the importance of eating proper foods in order to maintain health and vigor, and explained the loss of food vitamins caused by some methods of cooking. Fresh foods are best, Nielsen said, as some foods lose vitamins rapidly even though they are not cooked. Only a few of the vitamins have been isolated, but the nature and effect of many others are known to scientists and chemists. Many of the known vitamins are not, and can not be stored in the human body, and thus it becomes apparent that these should be supplied in the daily diet, the speaker said.

At the business session presided over by President Fred Hawkins, Homer LaPlant was elected treasurer of the club. Dr. William Gay and F. J. Berg were accepted as new members.

The next meeting will be held on Monday, Nov. 16, at 6:30 o'clock with the place of the dinner to be announced later.

WAUKEGAN DOCTOR JOINS BRATRUDE

Lake county lost two more of its medical men last week when Dr. John D. Foley and Dr. S. P. Kaiz left for army and navy posts respectively.

Dr. Foley, commissioned a captain, left Saturday for Camp Robinson, Arkansas. His brother, Dr. C. Joseph Foley, also a captain, is located at Camp Barkley, Texas. He entered service on Sept. 25. Dr. Kaiz, a lieutenant, is stationed at Great Lakes, in the medical corps.

Dr. A. P. Bratrude, Antioch doctor, commissioned captain, also reported recently at Camp Robinson.

Hold Rites for Daughter of Antioch Legionnaire

Funeral rites for Alicia Miller, 8, daughter of Mr. and Mrs. Kenneth Miller of Gages Lake were held Wednesday at 10 o'clock from St. Gilbert's church, Grayslake, with burial in Ascension cemetery at Libertyville.

She died Sunday in St. Theresa hospital, Waukegan, after a brief illness. Surviving are her father and mother, the former being a marine in World War I and at present tax collector in Warren township; a brother, Ross; and sister, Luella.

Kenneth Miller is a member of the Antioch American Legion post.

Mr. and Mrs. Hart Webb from Kenosha visited the Savage home Sunday afternoon.

New Deal Storm Troopers Are Sent To Purge Brooks

Dem. Senate Leaders Will Launch "Blitz" to Beat Illinois Senator

Senator C. Wayland Brooks must be purged. That's the edict of New Deal leaders who have ordered political "storm troops" into Illinois to eliminate him.

Resuming his campaign in Chicago, Sen. Brooks declared that a "full scale blitzkrieg" has been organized to re-enforce the Kelly-Nash machine in an attempt "to overpower the people of Illinois."

Five Democratic senators, mostly from the South, Brooks said, are being sent "to invade our state" to defeat him.

They are State Majority Leader "Dear Alben" Barkley of Kentucky, spokesman for the national administration; Senators Claude Pepper, Florida; A. B. "Happy" Chandler, Kentucky; M. C. Wadsworth, Washington, and Harry Truman, Missouri. Announcement of their forthcoming appearance in Illinois was made by Democratic State Chairman Edward J. Allen in Springfield. They are to appear downstate in the closing days of the campaign next week to "needle" the candidacy of Senator Brooks' opponent, Congressman Raymond S. McKenough.

Who Said "Adjourn Politics?" Senator Brooks said:

"While they are preparing to draft 18 and 19 year old boys to be sent around the world to invade enemy shores, they send their political troops to invade our state."

"Many of these senators come from the south, where they have successfully wiped out any minority representation. Now they march upon the people of Illinois to wipe out minority representation here."

"While thousands of American men and women will be called upon to die under their directions to establish the four freedoms throughout the world, the Democratic party with its complete control of the South should demonstrate its willingness to establish those freedoms within the confines of our own United States."

The people of Illinois are leading the nation in their contribution to our war effort, and the people of Illinois will decide who will represent them in the Senate and the Congress of the United States."

County Campaign Interesting

Meanwhile Republican candidates for county office are entering the last lap of the campaign with supreme confidence in the outcome on November 3. In this predominantly Republican county, it is believed by G. O. P. leaders that Democratic entrants for county office do not have a Chinaman's chance of being elected. However the Republican candidates are taking no chances and are waging an intensive campaign, "just to make sure."

The only Democratic threat in the county appears to be Phil Yager, candidate for county judge, who seeks to unseat the veteran county jurist, Perry L. Persons, who nearly lost the Republican nomination to Paul D. Roodlin in the April primary. Judge Persons has held the office for 32 years and he could have retired several years ago. Under the Judges' Retirement Act he could receive an annual pension of \$3,000.

Another Democrat who seems likely to give a good account of himself is Jack E. Baird, Waukegan corporation counsel, who is opposing former congressman, Ralph E. Church of Evanston for Representative in the Tenth district. Church is in "hot" with many Republicans for having returned as a candidate to oppose Cong. George Paddock in the primary. Church had quit his representative post to run for U. S. senator but was defeated in the primary two years ago by Senator Brooks.

County Candidates

The Republican candidates are: Perry L. Persons for county judge; Walter L. Atkinson for sheriff; Martin C. Decker for probate judge; Allen J. Nelson for probate clerk; Gustaf H. Fredbeck for county treasurer; Jay B. Morse for county clerk, and W. C. Petty for county superintendent of schools.

Democratic candidates: Philip W. Yager for county judge; Ivan C. Harlow for county clerk; Robert P. Sullivan for probate judge; Leo LaPointe for probate clerk; Antone Macrowski, Jr. for county treasurer; John Stanton for sheriff, and Henry C. Eads for county superintendent of schools.

Mrs. Helen Radtke and son, Eugene, and Mrs. Richard Kavanaugh of Kenosha were guests of Mr. and Mrs. H. A. Radtke, Sunday.

Mrs. Sine Laursen returned last week from a week's vacation, with relatives at Racine and Waukegan.

Reports Can't Win the War

Government reports and questionnaires have become a heavy burden on war production industries according to a survey just completed by the National Association of Manufacturers. During the past three months 84 companies were obliged to complete 3,479 reports to various agencies of the Government and 495,480 valuable man-hours were consumed in the process.

In one company alone, six separate departments or divisions spend either full or part time on the compilations of reports for the Federal Government. Each year this company has been called upon to complete 545 reports of 66 different types for 12 different Federal Government agencies, in addition to the 478 other reports required by the state, county and city governments — a total of 1,023 reports a year.

As each report covers from 1 to 20 pages and varies from 10 to 100 questions, it is evident that the Government is drawing off a lot of productive war time to say

nothing of the \$90,000 these reports cost this one company.

What do war material producers think of this avalanche of "hurry-up" reports that keep piling up on them almost every hour of the day? What would you think if you were trying to prepare Thanksgiving dinner for a big family and you were called to the door every few minutes to answer the questions of house-to-house canvassers?

Young America at War

The American family is at war. It isn't just a matter of Dad in the service and Mother in the factory. Young America, too, has joined in the fight and is doing yeoman service all along the home front.

We have talked of stockpiles of rubber and steel. What about manpower, future manpower which some day will direct the destiny of the nation for which we are now fighting? The younger generation cannot be at the front or on the production line. But it has not retired to the playground.

No, the youngsters have taken their places on the home front, in the collection of scrap, in the sale of War Bonds and in the countless little duties necessary to the smooth performance of the civilian defense machine. From the youngster who sells his pony and does odd jobs in order to buy bonds, to the schoolboy who saved the day when he discovered a leak in the local gas line, the youngsters of America are living up to their heritage.

"YA, GOTTA' HAND IT TO FOLKS FOR THE WAY THEY'RE COOPERATIN' WITH UNCLE SAM'S CAR-SHARING PROGRAM

"Yep, maybe some folks don't know there's a war goin' on—but believe me they do around these parts. 'Most everybody is pitchin' in and cooperatin' with Uncle Sam 100%."

"They know this war is no pink tea party... or some little skirmish over on the other side that's none of our business. Folks in this neighborhood are too smart for that kind of talk."

"Take those ladies out there in front now. Every one of 'em owns an automobile. One of 'em's got two cars. But does that stop 'em from sharing the ride? Not on your life."

"They realize practically all our rubber supply has been cut off by the Japs. They know it's going to be a mighty long time before we get any more. And they're farsighted enough to see that the tires we've got on our cars now have probably got to last for the duration."

"That's why they're car-sharing. That's why they're plannin' their shopping carefully every week. Not makin' a lot of unnecessary trips like they used to."

"Yep, and I've noticed most of our customers aren't asking for so many home-deliveries either. They realize, ya' see, that wastin' the rubber on our trucks helps Hitler, too."

"It's a lucky break for us storekeepers that folks in this community know a war like this'n brings on shortages of certain goods. If they didn't they'd be complainin' 'cause we happened to be out of this today... and that tomorrow."

"Yes sir... the way people are cooperatin' with car-sharing, rationing, and all the rest of the necessary war-time measures, ya' just know those Dictators haven't really got a chance. Not if we all work together to help our boys at the front!"

Roosevelt Outlines Manpower Program; 18-19 Year-Old Army Draft to Release Older Men for Needed War Production; Willkie Renews Second Front Demands

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper. Released by Western Newspaper Union.)

Japanese efforts to dislodge the marines from Guadalcanal and obtain possession of this strategic link in the Solomon Islands chain have taken a three-pronged pincer movement, according to military experts. Possession of Guadalcanal by the Americans provides a springboard for further offensive action against the Japs.

SOLOMONS: All-Out Struggle

Good news balanced bad as the navy made public accounts of thunderous encounters between American and Jap war craft.

On the credit side was the report that five Nipponese warships and a transport had been sunk in a mid-night battle near the Solomons. Included in the sinking were a heavy Jap cruiser, four destroyers and a transport. In addition, another destroyer was reported probably sunk, three cruisers torpedoed and bombed and 15 aircraft destroyed.

On the debit side was the somber tidings that three heavy American cruisers had been sent to the bottom of the Pacific in a night engagement during the first phase of the Solomon Islands offensive last August. Announcement of the sinkings had been withheld as a military precaution. The cruisers were the Quincy, Vincennes and Astoria.

The struggle for naval supremacy in the area was accompanied by engagements in the air and on land for control. On strategic Guadalcanal proper, the marine defenders had been re-enforced by U. S. army units. Offsetting this added American strength, the Japs had landed re-enforcements of their own, covered by heavy naval concentrations. Continued possession of their positions including the Guadalcanal air base by the U. S. forces meant that a heavy gun was thrust in the ribs of Japan's positions to the north and east.

WILLKIE: Persistent Advocate

Back from a 31,000-mile aerial tour of 14 countries in the war zone, including embattled Russia, the Middle East, India and China, Wendell L. Willkie reiterated a demand for a second front in Europe. He had made this demand frequently during his tour.

Reporting personally to President Roosevelt the results of his observations and of conferences with Joseph Stalin, Chiang Kai-shek and other Allied leaders, Willkie emphasized his conviction that the United Nations inevitably will defeat the Axis and that "Germany will never crush Russia."

In an interview later the 1940 Republican presidential candidate defended his right as a non-military expert to advance proposals which he believes will help shorten the war, reduce its cost in human life and help shape a better post-war world.

EMPLOYMENT: To Reach 62,500,000

Eventual employment of 62,500,000 Americans in all lines of industry, commerce and agriculture by December, 1943, was predicted by the National Industrial Conference board.

The board reported that current employment figures were 57,700,000 with the total moving steadily upward.

Rise in employment in the past 12 months has been 4,000,000, while 10,000,000 have been added to payrolls since the defense program was undertaken in 1940.

AIRCRAFT OUTPUT: Approaches 60,000

President Roosevelt's goal of an annual airplane production of 60,000 planes this year is being approached, the aeronautical chamber of commerce revealed.

Reporting that monthly plane production was pressing at 5,000, the chamber noted that more than 4 billion dollars worth of airplanes, engines and propellers will be produced in 1942.

"From the standpoint of numbers," the report said, "it is estimated that what was once a year's production of combat planes is rolling out of the American aircraft plants in a single week."

As production mounts, quality improves, the report stated. "Despite the stellar performance of America's combat planes," it said, "the aircraft manufacturers are perfecting new and improved types which can fly higher, travel faster and spray more lead and destruction than the models presently in service."

TIRES: Limit Is Five

The four tires they drove on, plus a spare for emergencies were all that American motorists could legally possess, as the U. S. government began acquiring excess civilian tires. The government was paying ceiling prices of from \$1.50 to \$1.15 for used tires, depending on the amount of tread.

Although the tire sale was voluntary, officials of the Office of Price Administration, warned that car owners with more than five tires would be denied gasoline rations when the nation-wide registration took place November 9. Fines of \$10,000 and prison terms of 10 years faced those who falsified their tire statements in applying for gasoline rations.

The government asked each motorist to keep the five best tires he had. Owners of two cars were told to keep 10 tires, five for each. The American Railway Express, with

23,000 offices in the United States, was the official collection agency. The program to buy excess tires was expected to increase the national stockpile by from 2,000,000 to 5,000,000 units.

ENEMY ALIENS: Italians Lose Stigma

Significant of the breach which the United Nations hope to effect between the Italian people and their Nazi mentors was Attorney General Biddle's action in freeing 600,000 Italian nationals in this country from the stigma of "enemy aliens." The ban still applied to German and Jap aliens.

Italian aliens had earned this recognition, Biddle said, because of

ATTORNEY GENERAL BIDDLE

"... stigma unfair."

"the splendid showing they have made in meeting the test of loyalty to American ways and traditions since the attack on Pearl Harbor."

Under a new department of justice policy, the attorney general revealed that Italians would still be subject to internment if they proved "dangerous or disloyal." But he explained that the general regula-

tions affecting enemy aliens, specifically Germans and Japanese, would no longer pertain to Italians.

LABOR: More 'Farm Union'?

Extension of his attempt to unionize agricultural labor was announced by John L. Lewis, president of the United Mine Workers of America in a statement at the close of the organization's convention in Cincinnati.

"There are millions more to organize, clamoring for organization," he said. "Great segments of agriculture are knocking at the door of the UMW for help toward becoming free and independent citizens."

While Lewis' statement sounded optimistic, observers recalled that his previous efforts to unionize dairy workers in a number of states had failed signally.

CHURCHILL: 'Stern and Somber'

In ancient Edinburgh, once the home of the Scottish kings, Prime Minister Churchill served notice on the Axis that the United Nations have built up their striking power remarkably in the last two months.

One of Churchill's statements was interpreted by some observers as implying an early opening of a second front, when he said the United Nations had reached a "stern and somber moment in the war."

THIS CAR IN YOUR WARTIME SERVICE

If you Really Need a Car, you can—
and should — get a New One NOW!

This car wants a wartime job!

It's ready and eager to get out helping someone do his part in the war effort — you'll be doing your country a patriotic service if you'll put it to work at a really needful job, instead of letting it stand idly by.

This is one of many brand-new, unused, 1942 models built before automobile production ceased — models that are safer, more dependable and, in many cases, more economical to run than older cars which have passed their prime.

That is why present car-buying regulations take into consideration the age and condition of your present car as well as the use you make of a car.

Thus if you are included in any of the seven major classifications of eligible buyers, chances are that you not only can but should replace your present car with a new one now.

You will ride on tires with their whole life before them. In this car, you'll travel behind a Buick FIREBALL valve-in-head straight-eight engine that makes the most of every single drop of fuel and oil.

Even the wheels in this Buick help get maximum mileage from tires, because the whole car is built to serve you through the duration.

The panel lists the seven major classifications of car-owners who are eligible to buy new cars now. If you are included — or think you might be — see your Buick dealer now about giving one of these eager beauties a wartime job to do.

Buick factories have been all-out on war production for months — but Buick dealers can make immediate deliveries from large and complete stocks.

If you NEED a new car...

VICHY: For lack of merchandise to supply the half million saloons and cafes, or one for every 30 inhabitants, a virtual prohibition regime has been established in France. Thousands have gone out of business since it has become impossible to get supplies. When a cafe proprietor gets a little stock of liquor or wine there is an immediate run on his place.

MIAMI: Albert John Capone, younger brother of Chicago's former gang czar Alphonse Capone, obtained a court order here to change his surname from Capone to Rayola. The order covered Capone, his wife and their son Robert Francis. Capone told the court the family wanted the name changed for the future benefit of the child.

SOCIETY EVENTS

Miss Minshall Is Bride at Lovely Church Wedding

Miss Virginia Minshall became the bride of Charles Miller at a ceremony performed Tuesday afternoon at the Methodist church. Rev. W. C. Henslee officiated.

The bride who is the daughter of Mr. and Mrs. L. Minshall of Camp Lake, wore broadcloth with fitted bodice and sweetheart neckline. Her bouquet was of white roses and carnations. She was given in marriage by her father.

The bridegroom is the son of George Miller of Antioch. He was attended by Elmer Hawkins of Antioch. Miss Margie Minshall, sister of the bride, as maid of honor wore blue taffeta and carried a bouquet of pink and white carnations. Eleanor Rusk and Janet Miller, bridesmaids, wore floor length dresses of blue and Patsy Miller, little sister of the bridegroom, wore rose silk taffeta and carried an old fashioned bouquet.

A reception was held at the home of the bride's parents at Camp Lake for the bridal party.

Mr. and Mrs. Miller will make their home for the present at Loon Lake.

Judge Awards Fat Fees....

(continued from page 1)

In the Republican primary last spring. Many of these experts were also the same men who joined last spring in the fight to displace Republican County Chairman William M. Marks and elect John Spellman of Lake Forest as county chairman. This move, according to reports, was intended to give Attorney General George F. Barrett control of the Lake County Republican committee.

The county court records give strong evidence in favor of the persistent reports that there is a political alliance between Judge Persons and the Barrett faction in Lake County.

\$1,050.00 Carbon Copy

Alfred C. Hauser, publicity and advertising man who has been connected with the political campaign of Ralph E. Church for congress, received a \$1,050 fee for his services as a "Real estate and securities expert" in the Charles Burrall Pike estate. Hauser testified that he was qualified as an expert because of his experience in writing financial stories for newspapers. His report on security valuations submitted was a carbon copy of the expert findings of his fellow investigator, Harold Pfister, Republican committeeman in precinct 15, Deerfield township. Pfister, who is an accountant, also received \$1,050 for his work.

Attorney Jack Pucin, candidate for committeeman in Waukegan precinct 26, last spring, and member of an influential North Chicago family which supported Judge Persons, received \$1,200 for his work. Pucin in his written report to Judge Persons said: "By reason of the deductions in allowance for attorneys' fees and executor's fees, the reason of the deduction in the long of the estimated federal estate tax, by reason of other findings heads, he submitted, the amount highest of estate tax is increased in the most by \$3,052.29." This state-ment about the increase, proves been \$3,052.29 increase was not caused by work of the "experts" paid by the court.

\$1,050.00 for Hauser

Hauser's \$1,050 fee as a real estate and securities expert takes on added significance in view of the fact that former Congressman Church has been quoted as Judge Persons' decision in the Johns-Manville case. Church is campaigning against Corpora to in Counsel Bairstow, Democratic candidate for congress. Hauser, it is reported, has been actively campaigning for Judge Persons as well as for Church. The close political association of the Church, Barrett, and Persons forces began just before the spring primary. Campaign opened, it is reported.

John (Pickles) Andracki, precinct committeeman, Waukegan 29, whose speakery was a rendezvous of politicians during prohibition days, but who failed to do well in the tavern business after repeal, and now is a machinist, was active in behalf of Judge Persons and Ralph Church in the primary. His reward of \$200 came in the George Tracy Buckingham estate. He also took a leading part in the unsuccessful attempt to defeat G.O.P. Chairman Marks and to put a man friendly to the Barrett faction in his place.

Superb Timing

A partial answer to the question as to why Doolen failed to carry Zion in the primary by a larger majority — where apparently he was a heavy favorite — may be gained from a study of the court record. Only five days before the primary two Zion politicians, LeRoy J. Peacy, a salesman who takes a leading part in the Zion Passion play, and Lester Baughman, a plumbing estimator, were inspired by an overwhelming zeal to nominate Judge Persons. Said, zeal, according to the court records, was inspired by the fact that Judge Persons approved fees of \$625 for Peacy and \$525 for Baughman for services as real estate and securities "experts" in the appraisal of the estate of Julia W. Fisher. The record does not show the date of their appointment.

In the Blanche C. Davis estate, Joseph C. Grana, Republican committeeman in Precinct 19, Waukegan, drew a fee of \$85 as "an investigator of values."

\$325 For Supervisor

Another interesting example, according to investigators, is the Fannie Atteridge estate case. William Witten, a member of the Lake County board of supervisors from Deerfield township, and a precinct committeeman, drew a fee of \$325 as a "real estate evaluator."

Lawrence Bidinger, a committeeman in precinct 13, Waukegan, received \$325 as an "investigator" in the same case. Bidinger has been in the navy since last April. The Atteridge case was filed in June and the fees were allowed in August. During this period, Bidinger was stationed outside of Illinois.

In the majority of the above mentioned cases and in the many others which have not been discussed in detail, there are no reports to be found in the county clerk's office as to the nature of the work done by these "experts" or any statement as to the nature of their services which would justify the fees allowed by the court.

Following are the names of the estates, the names of the "experts", and the fees allowed them:

The telegraph operator (city bred, and reared) called the stock yards: "We have a carload of 'e-wees', for you, do you know anything about it?" The lady answering the phone was non-plussed for a moment. And, what do you know — it turned out to be a carload of female sheep.

You Said It, Bub.

"Nice and quiet tonight," remarked the Antiochian strolling Antioch's main stem, "Just like the early hours of Hallowe'en night."

With the Northwest Conference championship in sight for the Antioch high school Sequoia gridders, the Lions club is stepping up its plans to hail the champs at the testimonial dinner to be given in honor of Coach Wolf-inbarger and his team the latter part of November. Football greats and near greats will be there and it should be a great evening.

Wheel Gets Tired!

It hasn't happened in Antioch in years, but on Tuesday, one of the many cars soon to be taken out of circulation by Uncle Sam, veered around the corner of Main and Quality spinning its front wheel across the lawn of the Sunshine Beauty shop — wonder if it needed hairoil?

Fill your laying house and keep it filled as a first step to capacity egg production. One hen requires 4 sq. feet of laying house floor space... a good hen can lay 200 eggs a year. Make this your goal. Keep a good hen in each 4 square feet of your laying house—feed your hens for capacity production. See us for details of a plan to do this job—the Purina Balanced Income Plan.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for October 25

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

STEPS TOWARD SOLUTION OF THE ALCOHOL PROBLEM

LESSON TEXT—Ecclesiastes 10:17; Amos 6:21-24; Romans 14:10-21 II Corinthians 6:17; I Peter 4:1-5.
GOLDEN TEXT—Let judgment run down as waters, and righteousness as a mighty stream.—Amos 6:24.

Let's do something about it! That is the right word regarding the liquor problem now. The time is past for theorizing or deploring—we need action. The liquor interests have redoubled their efforts of late because they fear the aroused public opinion of decent Americans. Why do not America's 65,000,000 church members say the word now, and curb this awful thing which is threatening to destroy us?

I. Right-Minded Rulers (Eccles. 10:17).

National leaders should set the example for the people—an example of sobriety, of clear-headed thought and full devotion to the cause of our country. Are they doing it? We quote: "Washington is the wettest spot in the nation. The per capita consumption of alcohol in the District of Columbia is almost twice that of the wettest state in the Union." In 1940, 4.26 gallons were consumed for every man, woman and child. Nevada, the wettest of all our states, consumed 2.05 gallons per person. There at Washington where they need the clearest heads, the steadiest nerves, and the highest morals, they are drinking the most booze! (Dr. T. M. Hargett).

What about 1942? Those who have been able to observe, indicate that conditions are probably worse now!

The secretary of war and the secretary of the navy have insisted on the desirability of the sale of beer in service canteens. No wonder the *Brewers' Digest* of May, 1941, gloated: "One of the finest things that could have happened was the insistence by high ranking officers to make beer available in army camps. . . . Here is a chance for the brewers to cultivate a taste for beer in millions of young men."

America had better wake up!

II. Right-Spirited People (Amos 6:21-24).

God has no pleasure in the religious observances and the pious words of a people who profess to worship, but who come with unrepentant hearts and unclean hands. Can God bless the man (or his money) who profits either directly or indirectly from the sale of intoxicants? Amos has the answer. Let us heed his plea that righteousness should run through our national, as well as our personal lives, "as a mighty stream."

III. Right-Living Christians (Rom. 14:10-21; I Cor. 6:17; I Pet. 4:1-5).

We have already suggested that there are 65,000,000 church members in America. If they were all right-living Christians there can be little question that they would long since have eliminated the liquor business, for it is certainly most unchristian. Apparently they are either not real Christians, or they are asleep to their responsibility. Our Scriptures in this section tell us that in a true Christian life there is:

1. No offense (Rom. 14:10-21).

The question here is that of eating meat offered to idols, which does not concern us; but the great Christian principle here stated is of the highest importance and bears directly on our daily life.

None of us lives to himself (Rom. 14:7). Everything we do counts either for or against Christ. Such an ordinary (we regret) thing as staying away from church service speaks to the world and especially to our neighbors of our loss of interest and respect for the worship of God. Apply that principle to the use of any alcoholic beverage, and every Christian must be a total abstainer.

2. No Compromise (I Cor. 6:17).

We have come to the unscriptural and deeply dangerous viewpoint that if a Christian wants to compromise a bit with the world, the flesh and the devil, that's his "business." God does not think so. He says: "Come out from among them, and be separate." The weakness of the church on this matter of liquor is that too many of the 65,000,000 are guilty of the sin (and that's what it is!) of compromise.

3. No Worldliness (I Pet. 4:1-5).

Here again the assumption of many is that there are two groups in the church—worldly Christians and spiritually-minded ones, and that each is as good as the other. Both classes are there, no doubt about that, but God never has and never will countenance worldliness on the part of His people.

Essentially, there are just two opposing principles in this world—self-will and God's will. We are either controlled by the flesh or by the Spirit of God. Peter makes it clear that the one who claims to belong to Christ should no longer be controlled by self-will, but by God's will. Are we ready, fellow Christians, to yield to Him?

Can Graduate From U. of Ill. In Three Years

Illinois high school seniors who enter the University of Illinois summer quarter starting June 8, may receive their degrees in three years—June, 1945.

Another feature is that by entering in June, and attending all regular sessions offered by the University, a new student may by August, 1943, complete two full years of work—thus attaining junior standing and qualifying for several courses offered by the Navy, which lead ultimately to commissions.

The coming summer quarter at the University will begin June 8 and conclude August 29. Scholastic credit equal to that of one regular semester will be granted toward graduation.

The regular semesters of 1942-43 each will contain 15 weeks and two days of actual classroom instruction and an eight-day final examination period.

Activities of the first (Fall) semester will begin Sept. 10 with Freshman Week and freshman registration. Instruction begins Sept. 16.

The Thanksgiving recess extends from noon Nov. 25 to 1 p. m. Nov. 30, and the Christmas holiday recess from noon Dec. 19 to 8 a. m. Jan. 4. Final examinations are Jan. 15 to 23.

For the second semester, registration will be Jan. 28 and Jan. 29. Instruction begins Feb. 1 and continues without interruption to the final exam period, May 17 to 25. Commencement for 1943 is set for May 31.

Dates for the 1943 Summer Quarter are June 8 to August 28.

U. of I. R.O.T.C. Trained 4,000 Army Officers

The University of Illinois is the military as well as the academic alma mater of some 4,000 men now in the military service of the United States. Every spring for 20 years more than 200 second lieutenants have been commissioned in the army reserves from the University's Reserve Officers Training Corps.

Officer training units such as this made possible the rapid expansion of the United States Army. But the University of Illinois gave military training to many more men than those commissioned. While the commissions went to the selected men who had completed four years of military training, all men students in the University since it started have received two years of such work.

The R.O.T.C. cadet corps now numbers some 4,000 students, with 3,400 of them in the basic two years and 600 in the advanced two years. This basic training makes all Illinois men potential officer material.

The University R.O.T.C. is one of the largest in the nation. Because of its size and excellence, Gen. John J. Pershing years ago called the University of Illinois "the West Point of the West." That reputation has been upheld with jealousy.

The University cadet corps is 74 years old. It was organized in 1868 when the institution was opened. Today it is composed of six units: Infantry, cavalry, engineers, signal corps, coast artillery (anti-aircraft), and field artillery (both horse-drawn and motorized).

U. of Ill. Physician Upsets Food Ideas For Healthy Livers

Theories about the best foods to keep livers healthy have been completely upset by experiments in the University of Illinois College of Medicine in Chicago.

Evidence seems to prove that it is not sugars and starches, but proteins—meat, milk, eggs—which are most necessary for a healthy liver, according to Dr. R. W. Keeton and Dr. M. A. Spellberg.

Because sugars and starches contain a form of blood sugar which is stored in the liver, they have been previously thought beneficial to it, but the University of Illinois doctors found otherwise. They also found that fats are detrimental to the liver.

They concluded that "the prevention and treatment of liver diseases in human beings may be accomplished by certain diets, especially those rich in proteins and vitamins, but low in toxic type of fat."

They added that "our research furnished further evidence that so-called 'alcoholic' cirrhosis of the liver may not be due to alcohol at all, but rather to the neglect of the diet that is so common among heavy drinkers."

State U. Is 4th Largest

The University of Illinois maintained its place as the nation's fourth largest educational institution on the basis of full time resident enrollment during the regular terms of 1940-41—the last complete academic year for which figures have been published.

Illinois' full-time enrollment during the regular terms was 12,694. It was exceeded only by the University of California at Berkeley, 13,908; Minnesota, 13,484; and Columbia, 13,072.

LAKE VILLA

Mr. and Mrs. Zens Zener had as guests last week, their brother and wife from Ottawa, Ill.

The salvage depot on the Hucker used car lot and the one for the Boy Scouts on the old State road station on Grand avenue have grown larger daily.

The dedication of the honor roll of Lake Villa service men, which is placed near the post office, was held last Saturday afternoon and the beautiful weather made it possible for many to gather for this outdoor service, which was in charge of H. Nickerson, John Crilly, William Marks, F. W. Kirk, John Walker and Earl Hucker. The board on which the names appear is white with black lettering, and has a red, white and blue border. A small picket fence surrounds it and small evergreens add to the appearance. Two of the latest names to be added are Jack Effinger and Arthur Haley who went last week, bringing the number to more than 60. The Lake Villa Civilian Defense Council sponsored the affair.

The official board of the church held its regular monthly meeting with Mr. and Mrs. Reinbach at their home on Wednesday evening.

Mr. and Mrs. Andrew McGlashan spent a few days last week with their daughter and husband in Chicago. The young man entered the army this week.

Dr. and Mrs. Mosby entertained a number of men from Great Lakes and friends from Antioch at dinner at their home last Sunday.

Mr. and Mrs. William Hucker who spent the summer months at their cottages at Chetek, Wis., returned to their home here last week.

Mr. and Mrs. Olschlager and family, who have been living in the Pester house on Route 21, moved to the Manzer house on Grand and Cleveland avenue.

Mrs. Leona Wedge of Waukegan visited her brother, Charles Thorn, and niece, Mrs. Blanche, last week.

Mr. and Mrs. D. Warren and daughters, Vivien and Patty, left this week with their trailer for Dallas, Texas, and expect to make their home

in the south. They have lived at Cedar Lake for some time and have made many friends whose good wishes go with them. The Mattson family from the Thorn subdivision, will occupy the Warren cottage.

Lake Villa School Notes

The Ring twins had a birthday on Thursday and all their schoolmates wished them a happy one.

The Junior Citizens Club will meet on Friday afternoon.

Dr. Callahan will give physical examinations on Thursday, Oct. 22, and asks that one parent of each child be present.

There will be no school on Monday, Oct. 27, as Miss Crenin and Miss Paleh will attend a Lake Shore Division meeting in Evanston.

Bill Hucker's grandparents have just returned from the North and he is very glad to have them back.

Richard Sherer, Mary Lou Williams and Kathleen Gindich have been absent from school a few days because of illness, but we hope they will all be back soon.

TREVOR

Mrs. Emma Allner, Chicago, is visiting her daughter and husband, Mr. and Mrs. Richard Corrin.

Eleven tables of cards at Social Center hall were entertained Tuesday evening by the Trevor school.

Judith May and Johnnie Russell are spending this week with their grandmother, Mrs. J. G. Mason.

The Lee Wilson family returned home Wednesday morning from a week's visit with relatives at Des Moines, Iowa.

Mrs. Allner, Antioch, spent Tuesday night with her daughter and husband, Mr. and Mrs. H. Schneider, and also attended the card party at Social Center hall in the evening.

Mrs. A. Ruth Late of Clarington, Ohio, is spending the week visiting at the home of her daughter-in-law and grandsons, Stanley and Billy Hubbard.

Mr. and Mrs. John Mattis, Mrs. A. Ruth Late of Clarington, Ohio, spent Wednesday in Chicago to see the former's son leave for the army.

John Gaggin of Twin Lakes was a Trevor caller Wednesday.

Mr. and Mrs. Allen Copper and daughter, Frances Mary, motored to Whitewater Friday, where they visited the former's sister, Mrs. William Smith and family.

Mr. and Mrs. Herman Schulz, Pleasant Prairie, were Sunday visitors at the Theron Hollister home.

Mr. and Mrs. Charlie Mahn, Forest Park, spent Sunday with the former's brother, Dick Mahn, at Rock Lake.

William Galliard of Salem was a caller Saturday at the Lee Wilson home.

The school children are busy gathering scrap iron.

Mr. and Mrs. Glenn Pacey, Jefferson, Wis., were Sunday visitors of their mother, Mrs. Jessie Allen, the latter returning home with them for a few days' visit.

Mrs. Lena Holmes spent a few days the past week with friends in Antioch.

Sunday visitors at the Daniel Longman home were Mrs. Nellie Ray and Grand daughter Mrs. Fred Brown of Waukegan, Norris Proctor, Green Bay, Wis., and Fred Bowers of Zion.

Suggestions on
how to be prepared for the next

BLACKOUT

Just turn out lights . . . don't pull main switch

Pulling main switches needlessly reduces the efficient operation of a home. There are many electric appliances that serve a vital household function without casting a light. Ranges, oil burners, water heaters, refrigerators, clocks, radios—any break in their operation lessens the efficiency of the home.

Make your home livable during blackouts

A blackout, especially a long one, may have a harmful, depressing effect on your family—unless some part of your home is specially prepared for living under blackout conditions.

You may want to select one room as a "refuge room," and black out its windows so that the family can gather in cheerful surroundings. Also, you may want to black out the bathroom window. It's a good idea to make the same preparations for your kitchen, too, in case of a prolonged blackout.

Write out your "blackout schedule"

Don't leave the blacking out of your home to chance. Make a list of all the things that have to be done. Appoint one member of the family to be responsible, with a substitute to serve in his absence.

If you plan to be away from home during the evening, and wish to leave a light burning, be sure to make some arrangement with a neighbor. Remember, even "practice" blackouts may come without warning!

Modern Youth Is Taught How to Live, Millburn Pastor Says

Right Decisions Important, Rev. Messersmith Tells P. T. A. Group

Forty-one parents and teachers attended a meeting of the Parent-Teachers association at the high school Monday night.

The Rev. Messersmith, pastor of the Millburn Congregational church, the speaker of the evening, compared the situation of a typical youth of the preceding generation with that of a present-day youth, giving suggestions concerning the moral conduct of youth.

The home was different in earlier times, said Mr. Messersmith, because "Father and Mother were our counselors in the home, and counselors in whom we had faith. With no movies and fewer books and magazines, we had to make our own entertainment." By contrast, today, families have less time together, and common interests are not so many. "The more we have, the more difficult it becomes to make the right decisions."

Today, said the speaker, there is less time for church, but considering the distractions they have, modern day people attend church quite well.

Schools too, according to the Reverend Messersmith, were different in previous years. "Schooling was thought of as a privilege. Today, 'The school has changed; courses are changed. In addition to teaching young people how to make a living, we are teaching them how to live. We are learning more about fellowships.'"

Lastly, the speaker pointed out six ways by which we may measure moral questions: (1) test of common sense; (2) test of sportsmanship; (3) test of submitting the question to our best self; (4) test of publicity; (5) test of the most admired personality we know; (6) test of foresight.

Hans Von Holwede led community singing at the opening of the meeting, and Miss Grace King played a clarinet solo, "Viennese Echoes." Mrs. Petty, chairman of the program committee, introduced the new members of that committee, Mrs. Emmet King and Principal T. R. Birkhead.

The next meeting of the high school Parent Teacher association will be held at the high school November 16.

Mr. and Mrs. Henry Olcott and Mrs. Lewis Savage of Waukegan were guests of Mr. and Mrs. Sol LaPlant Tuesday.

CHOOSE CAST FOR JUNIOR PLAY— "WHAT A LIFE"

Rehearsals for the Junior play, "What a Life," to be presented at the high school under the direction of Miss Margaret McDorman, November 19 and 20, have been under way for two weeks.

Miss McDorman has announced the following students as members of the cast: Edna Pedersen, Howard Hageman, Ruth McGlynn, June Kutil, Alice Harvey, Rosalie Sibley, Judy Tregenza, Ruth Messersmann, James Cunningham, Shirley Harness, Kathleen Fields, Bill Dow, Frances Zimmerman, Charles Fisher, Billie Maye Runyard, Ralph Lasco, Gerda Pierce, Ida Maier, Ted Carlson, and Leonard Roblin.

Howard Hageman and Charles Fisher are members of the senior class.

SEQUOITS PLAN HOME-COMING

Homecoming activities of Antioch High school will be held Wednesday and Friday, October 28 and 30. They will begin on Wednesday with a bonfire followed by a snake dance. On Friday there will be a game with Grant and a dance afterwards.

The team is on top in the conference. The last game with Palatine resulted in an overwhelming victory of 38 to 6, even though the team was handicapped by a dark, drizzling, dismal day. The team is expected to achieve a score against Northbrook and Grant somewhat the same as it has been in the past.

Committees have been appointed to arrange for the bonfire and snake dance. The dance Friday will be given in the auditorium at 8:00 P. M. All alumni are invited. Music will be afforded by the Swing Band.
